STILL HAVE QUESTIONS?

Here are some frequently asked questions about leasing.

Q. What are the benefits of leasing?

A. With a lease, payments may be lower than financing the same vehicle, since you only pay for the portion of the vehicle you use over the term of the lease. You can consider vehicles that have more options; trade in your vehicle for the latest model more frequently; and align the lease term to the vehicle warranty period for greater peace of mind.

Q. Does leasing require less money upfront?

A. The down payment amount for leasing a vehicle varies based on the lease transaction structure and monthly payment you desire, but generally, may be lower than buying.

Q. With a lease, am I protected from possible negative equity?

A. With a lease, you avoid the potential risk that your vehicle's value has declined beyond its projected residual value at the end of your lease term by adhering to the kilometre restrictions included in the lease contract.

Q. What happens at the end of a lease?

A. At the end of term, you have the option to purchase the vehicle or turn it in, subject to the terms outlined in your lease agreement. GM Financial will communicate with you prior to the end of your lease to guide you through the lease-end process.

Q. Is leasing right for me?

A. Leasing may not be for everyone, but for many, it's the right fit.
